
VILLAGE HEIGHTS RESORT

EXPERIENCES

MITATO

Step into a world of tranquility and wellness at the newly-built Mitato, an extraordinary space inspired by the traditional Cretan shelters known as «Mitato.» These huts, historically constructed from locally gathered stones, served as shelters for shepherds and were integral to the art of cheese-making. At Village Heights, the Mitato pays homage to this rich architectural heritage, blending the raw beauty of austere functionality with modern comfort.

This versatile space is perfect for a range of activities & celebrations, from yoga sessions and wine-tastings to private dining and other unique experiences. Whether you're hosting a memorable event, celebrating a special occasion or indulging in farm-to-table dining, the Mitato offers a space that reconnects you with nature and fosters inner peace.
